DECLARATION ABOUT REGULATION (EU) 2025/40 (PPWR)

1. Declaration No. 01/2026

2. SUPPLIER INFORMATION

Company name: CONTITAL TURKEY

Address: Veliköy OSB Mah, Sanayi Bulvarı, No:80/1 Veliköy-Çerkezköy/ Tekirdağ/ Türkiye

3. PRODUCT IDENTIFICATION

Product Description: Single- or multi-compartment containers, trays, or lids made of plain or coated aluminium, available in various shapes and sizes, as well as aluminium foils in different lengths and thicknesses.

This document applies to packaging with the layer structures described below:

- Plain products (containers, trays, lids, and foil rolls): 100% Aluminium
- Coated products (containers and trays): Coating / Aluminium / Coating

The product may be packaged in various ways using the following packaging options:

- Primary Packaging: Plastic bags (for containers, trays, or lids), paper/cardboard boxes (for aluminium foils), bubble wrap protective packaging (for aluminium foils), and paperboard sleeves (for containers and trays).
- Secondary Packaging: Corrugated cardboard boxes (for containers, trays, lids, or aluminium foil), plastic or metal crates (for containers, trays, and lids).
- Other Packaging Components: Paper labels, plastic adhesive tape, plastic or paper separators, plastic stretch film, cardboard corner protectors, and wooden pallets (for all products).
- Commercial Products: Metallized or OPP-coated paper lids, PE-coated paper bowls, and PET lids.

4. COMPANY ROLE IN THE PACKAGING SUPPLY CHAIN

The undersigned company operates as a manufacturer/supplier of packaging and assumes the role of Manufacturer, as defined in Article 3(13) "Definitions" and Article 15 "Obligations of the Manufacturer" when placing products on the Union market under its own name or trademark, or the role of Supplier, as defined in Article 3(16) "Definitions" and Article 16 "Information Obligations of Suppliers of Packaging or Packaging Materials" when supplying a manufacturer.

This document is issued under the sole responsibility of the company.

5. REQUIREMENTS OF REGULATION (EU) 2025/40

The product identified in Section 3 complies with the following articles of the PPWR Regulation:

- **Article 5 - Requirements for Substances in Packaging**

  Substances of Concern (Artide 5, paragraphs 1, 2 and 3):

  - **SVHC Substances (according to REACH Regulation (EC) No 1907/2006)**

    The product complies with the applicable regulatory restrictions based on analytical testing performed by accredited laboratories and supporting documentation received from suppliers. Substances of Very High Concern (SVHCs) pursuant to Regulation (EC) No 1907/2006, if present, are below the threshold concentration of 0.1% w/w.

  - **Heavy Metals (Article 5, paragraph 4)**

    The product complies with the applicable regulatory restrictions concerning heavy metals (Pb, Cd, Hg, Cr6+). There is no evidence that the applicable limits (<100 ppm) established by current legislation have been exceeded.

  - **PFAS (Article 5, paragraph 5)**

    The product complies with the applicable regulatory restrictions concerning per- and polyfluoroalkyl substances (PFAS). PFAS substances are not intentionally used at any stage of the manufacturing process. Based on analytical testing carried out by accredited laboratories, the requirement of a total fluorine content limit of 50 ppm, including polymeric PFAS (point c), is met.

- **Article 6 - Recyclable Packaging**

Effective from 01/01/2030. The product complies with the provisions of Directive 94/62/EC regarding essential environmental requirements. In particular, it has been designed and manufactured in accordance with the following technical standards:

  - EN 13427:2005 – Packaging and Packaging Waste – Requirements for the Use of European Standards in the Field of Packaging and Packaging Waste
  - EN 13428:2005 – Packaging – Requirements Specific to Manufacturing and Composition – Prevention by Source Reduction
  - EN 13430:2005 – Packaging – Requirements for Packaging Recoverable by Material Recycling

- **Article 7 - Minimum Recycled Content in Plastic Packaging**

  Effective from 01/01/2030. Not applicable to this product.

- **Article 8 - Bio-based Feedstock in Plastic Packaging**

  Effective from 12/02/2028. Not applicable to this product.

- **Article 9 - Compostable Packaging**

  Effective from 12/02/2028. Not applicable to this product.

- **Article 10 - Packaging Minimization**

  Effective from 01/01/2030. The packaging has been designed so that its weight and volume are reduced to the minimum necessary to ensure its functionality, taking into account its shape and the materials from which it is made.

- **Article 11 - Reusable Packaging**

  Not applicable to this product.

- **Article 12 - Packaging Labelling**

  Effective from 12/02/2028 with regard to harmonized labelling requirements. The product labelling complies with current legislation and contains the information required for proper disposal. The product may be disposed of under the code ALU-41.

Supporting documentation is available at the company's premises upon request by the competent authorities.

6. RESPONSIBILITY

Responsibility for the compliance of the finished packaging with the requirements of Regulation (EU) 2025/40 rests with the economic operator placing the packaging on the market. Where the undersigned company acts as a Supplier, this declaration cannot automatically be extended to the final product, its processing, or its intended use. In such cases, it is the responsibility of the Manufacturer to issue its own declaration.

7. FINAL DECLARATION

The information contained in this document is provided in good faith based on technical knowledge, information received from suppliers, and data available on the date of issue.

This document is intended for information purposes only and may be used by the customer as supporting documentation in preparing its own assessment and compliance documentation pursuant to Regulation (EU) 2025/40.

This document may be updated following regulatory changes, technical developments, publication of delegated acts, harmonized standards, or guidance documents relating to Regulation (EU) 2025/40.
